

Technical Events for MCA

AdvIT – Express & Impress! (PAPER PRESENTATION)

AdvIT provides platform to share your knowledge on upcoming trends in IT sector. Your papers signify the empowerment of IT professionals by reinforcing the fundamentals and detailing the current IT scenario.

Investigate on any one of the following domains and come up with a sophisticated paper:

- (a) Data Analytics
- (b) Fog Computing
- (c) Internet of Things
- (d) Artificial Intelligence
- (e) Image Processing
- (f) Wireless Networking
- (g) Any emerging trends in computer science

No. of Authors per paper – 2

E-mail your FULL PAPER to inspinno2019@gmail.com by the evening of **19/03/2019**. Shortlisted papers will be intimated by the evening of **20/03/2019**.

Title your e-mail with: Domain name, Title of the paper, Name of the authors and Phone no's and E-mail Ids. Shortlisted candidates have to bring a softcopy, a hard copy and a MS Power Point presentation of the paper.

hIghQ – Test your wisdom! (TECHNICAL QUIZ)

hIghQ is a completely techno-themed quiz competition and will test the software competencies of the participants in various IT-related disciplines. Creative quizzing methods make the contest exciting and all the more informative. So, get ready to test your IT quotient.

ROUND I – Online technical test consisting of questions from C and Java programming languages

FINALS – Multiple rounds that have Audio-visual questions, Current affairs, Technical abbreviations etc.

No. of participants per team – 3

SILVER BULLET – Aim for the bug’s eye! (DEBUGGING GAME)

The hopeful belief that the language syntax and semantics i.e. Structured coding, strong typing, complexity hiding eliminates most bugs. So, it is time to play with the Silver Bullet that ejects the bugs from the programs. Best of luck all the bug sharpshooters!

ROUND I - This round titled “*Race to Trace*” has the programs from C language that call for debugging

ROUND II - This round titled “*Mission Code 002*” will have the programs from C language in which Source Lines are in random order to be rearranged by the participant into the actual sequence for required output

ROUND III - This round titled “*Crack Java*” will have the programs from Java language to be debugged

No. of participants per team - 1
